CHILD PROTECTION POLICY

June 2017
To be reviewed June 2018

Policy Approved by Board of Governors

Signed: _____
(Chair of Board of Governors)

Date: _____

1. CHILD PROTECTION ETHOS

We in Bready Jubilee Primary School have a responsibility for the Pastoral Care, general welfare and safety of the children in our care and we will carry out this duty by providing a caring, supportive and safe environment, where each child is valued for his or her unique talents and abilities, and in which all our young people can learn and develop to their full potential. All staff, teaching and non-teaching should be alert to the signs of possible abuse and should know the procedures to be followed. This Policy sets out guidance on the action, which is required where abuse or neglect of a child is suspected and outlines referral procedures within our school

2. PRINCIPLES

The general principles, which underpin our work, are those set out in the UN Convention on the Rights of the Child and are enshrined in the Children (Northern Ireland) Order 1995, the Department of Education (Northern Ireland) guidance "Pastoral Care in Schools- Child Protection"(DENI Circular 99/10) and the Area Child Protection Committees' Regional Policy and Procedures(2005).

The following principles form the basis of our Child Protection Policy.

- It is a child's right to feel safe at all times, to be heard, listened to and taken seriously.
- We have a pastoral responsibility towards the children in our care and should take all reasonable steps to ensure their welfare is safeguarded and their safety is preserved.
- In any incident the child's welfare must be paramount, this overrides all other considerations.
- A proper balance must be struck between protecting children and respecting the rights and needs of parents and families; but where there is conflict the child's interest must always come first.

3. OTHER RELEVANT POLICIES

6. WHAT IS CHILD ABUSE?

The following definitions of child abuse are taken from the Area Child Protection Committees' Regional Policy and Procedures (2005).

6.1 Definition of Abuse

Child abuse occurs when a child is neglected, harmed or not provided with proper care. Children may be abused in many settings, in a family, in an institutional or community setting, by those known to them or more rarely, by a stranger. There are different types of abuse and a child may suffer more than one of them. The procedures outlined in this document are intended to safeguard children who are at risk of significant harm because of abuse or neglect by a parent, carer or other with a duty of care towards a child.

6.2 Types of Abuse

Neglect is the persistent failure to meet a child's physical, emotional and/or psychological needs, likely to result in significant harm. It may involve a parent or carer failing to provide adequate food, shelter and clothing, failing to protect a child from physical harm or danger, failing to ensure access to appropriate medical care or treatment, lack of stimulation or lack of supervision. It may also include non-organic failure to thrive (faltering growth).

Physical Abuse is the deliberate physical injury to a child, or the wilful or neglectful failure to prevent physical injury or suffering. This may include hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, confinement to a room or cot, or inappropriately giving drugs to control behaviour.

Emotional Abuse is the persistent emotional ill-treatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that he is worthless or unloved, inadequate, or valued only insofar as he meets the needs of the other person. It may involve causing a child to frequently feel frightened or in danger, or the exploitation or corruption of a child. Some level of emotional abuse is involved in all types of ill-treatment of a child, though it may occur alone. Domestic violence, adult mental health problems, FGM and parental substance misuse may expose a child to emotional abuse. Domestic abuse is threatening behaviour, violence or abuse (psychological, physical, verbal, sexual, financial or emotional) inflicted on one person by another where they are or have been partners or family members, irrespective of gender or sexual orientation.

Sexual Abuse involves forcing or enticing a child to take part in sexual activities. The activities may involve physical contact, including penetrative or non-penetrative acts. They may include non-contact activities, such as involving children in looking at, or in the production of, pornographic material or watching sexual activities, or encouraging children to behave in sexually inappropriate ways. Child sexual exploitation is a form of sexual abuse in which a person(s) exploits, coerces and/or manipulates a child or young person into engaging in some form of sexual activity in return for something the child needs or desires.

Domestic abuse is any type of controlling, bullying, threatening or violent behaviour between people in a relationship. But it isn't just physical violence – domestic abuse includes any emotional, physical, sexual, financial or psychological abuse.

It can happen in any relationship, and even after the relationship has ended. Both men and women can be abused or abusers.

Witnessing domestic abuse is child abuse, and teenagers can suffer domestic abuse in their relationships. Domestic abuse can seriously harm children and young people.

Child sexual exploitation (CSE) is a type of sexual abuse. Children in exploitative situations and relationships receive something such as gifts, money or affection as a result of performing sexual activities or others performing sexual activities on them.

Children or young people may be tricked into believing they're in a loving, consensual relationship. They might be invited to parties and given drugs and alcohol. They may also be groomed and exploited online.

Some children and young people are trafficked into or within the UK for the purpose of sexual exploitation. Sexual exploitation can also happen to young people in gangs.

Child sexual exploitation is a hidden crime. Young people often trust their abuser and don't understand that they're being abused. They may depend on their abuser or be too scared to tell anyone what's happening.

It can involve violent, humiliating and degrading sexual assaults, including oral and anal rape. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Child sexual exploitation doesn't always involve physical contact and can happen online.

Female genital mutilation (FGM) is the partial or total removal of external female genitalia for non-medical reasons. It's also known as female circumcision or cutting. Religious, social or cultural reasons are sometimes given for FGM. However, FGM is child abuse. It's dangerous and a criminal offence.

There are no medical reasons to carry out FGM. It doesn't enhance fertility and it doesn't make childbirth safer. It is used to control female sexuality and can cause severe and long-lasting damage to physical and emotional health.

FGM has been a criminal offence in the UK since 1985. In 2003 it also became a criminal offence for UK nationals or permanent UK residents to take their child abroad to have female genital mutilation.

Anyone found guilty of the offence faces a maximum penalty of 14 years in prison.

A child may suffer or be at risk of suffering from one or more types of abuse and abuse may take place on a single occasion or may occur repeatedly over time.

6.3 Signs and symptoms of abuse (these are outlined in Appendix 1)

7. PROCEDURES FOR MAKING COMPLAINTS IN RELATION TO CHILD ABUSE

7.1 How a Parent can make a Complaint

At Bready Jubilee Primary School we aim to work closely with the parents/guardians in supporting all aspects of the child's development and well-being. Any concerns a parent may have will be taken seriously and dealt with in a professional manner. If a parent has a concern they can talk to the class teacher or the Principal/Designated teacher for child protection. If they are still concerned they may talk to the Chair of the Board of Governors. At any time a parent may talk to a social worker in the local Gateway team or to the PSNI Public Protection Unit. Details of who to contact are shown in the flowchart in Appendix 2.

7.2 Where the school has concerns or has been given information about possible abuse by someone other than a member of the school staff

Where staff become aware of concerns or are approached by a child they should not investigate – this is a matter for the Social Services – but should report these concerns immediately to the designated teacher, discuss the matter with her and make full notes. These notes or records should be factual, objective nature and include what was seen, said, heard or reported, the place and time of who was present and should be given to the designated teacher. The person who reports the incident must treat the matter in confidence.

The designated teacher will decide whether in the best interest of the child the matter needs to be referred to the Social Services. If there are concerns that the child may be at risk, the school is obliged to make a referral. Unless there are concerns that a parent may be the possible abuser, the parent will be informed immediately.

The designated teacher may need to seek discreet preliminary clarification from the person making the complaint or giving the information or from others who may have relevant information. The designated teacher may also consult with the Western Education & Library Board's designated officer for child protection or Social Services (Gateway Team) before a referral is made. No decision to refer a case to Social Services will be made without the fullest consideration and on appropriate advice. The safety of the child is our prime priority.

If there are concerns that the child or young person may be at risk, the designated teacher is obliged to make a referral. Unless there are concerns that a parent may be the possible abuser, the parents will be informed immediately.

Where there are concerns about possible abuse and a referral needs to be made the designated teacher will telephone the Western Health & Social Services Gateway Team. She will also notify the Western Education & Library Board's designated officer for child protection. A UNOCINI (Understanding the Needs of Children in Northern Ireland) referral form will also be completed and forwarded to the Gateway team with a copy sent to the WELB designated officer for child protection.

This procedure with names and contact numbers is shown in Appendix 3.

The following are guidelines for use by staff should a child disclose concerns of a child protection nature.

Do's	Don'ts
<p>Do listen to what the child says.</p> <p>Do assure the child they are not at fault.</p> <p>Do explain to the child that you cannot keep it a secret.</p> <p>Do document exactly what the child says, using his/her exact words.</p> <p>Do remember not to promise the child confidentiality.</p>	<p>Don't ask leading questions.</p> <p>Don't put words into the child's mouth.</p> <p>Don't ignore the child's behaviour.</p> <p>Don't remove any clothing.</p>

Do's	Don'ts
<ul style="list-style-type: none"> • Stay calm • Listen • Accept • Reassure • Explain what you are going to do • Record accurately • Seek support for yourself 	<ul style="list-style-type: none"> • Panic • Promise to keep secrets • Ask leading questions • Make the child repeat the story unnecessarily • Delay • Start to investigate • Do Nothing

7.3 Where a complaint has been made about possible abuse by a member of the school's staff

If a complaint about possible child abuse is made against a member of staff, the Principal/Designated teacher (or the deputy designated teacher if she is not available) must be informed immediately. The above procedures will apply (unless the complaint is about the Principal/Designated teacher)

If a complaint is made against the Principal/Designated teacher the Chairperson of The Board of Governors will be informed and he/she will ensure that necessary action is taken.

Where the matter is referred to the Social Services the member of staff may be removed from duties involving direct contact with pupils (and may be suspended from duty as a precautionary measure pending investigation by the appropriate authorities). The Chairman of the Board of Governors will also be informed immediately.

Where an allegation is made against a member of staff and is pursued either as a formal referral or under the agreed disciplinary procedures for teacher's, a detailed record of the complaint, signed by the Principal, shall be retained on the child's file and the file of the member of staff concerned. An entry will also be made in the school's Record of Child Abuse Complaints.

If, on foot of a subsequent investigation by one of the investigating agencies, the member of staff concerned is totally exonerated, the record on the file of the member of staff concerned shall be expunged, and the entry in the school's Record of Child Abuse Complaints deleted or struck through.

However where disciplinary investigation or action is undertaken in the context of child protection, all details relating to the complaint and disciplinary sanction shall be maintained on the teachers file for a period of 5 years. The record on the child's file should be noted accordingly, and should be maintained indefinitely in case there should be subsequent complaints. In all other cases, the record on both the child's file and the staff member's file should be maintained indefinitely

The school's record of Child Abuse complaints will be made available to the Board of Governors/Management Committee at least annually.

This procedure with names and contact numbers is shown in Appendix 4.

7.4 Where a complaint has been made about possible abuse by a volunteer

Any complaint about the conduct of a person working in the school in a voluntary capacity should be treated in the same manner as complaints against a person who is not on the school's staff, and the above procedures followed. If the Principal has any concern that a child may be at risk, the services of the volunteer should be terminated immediately.

8. ATTENDANCE AT CHILD PROTECTION CASE CONFERENCES AND CORE GROUP MEETINGS

The Designated Teacher/Deputy Designated teacher or Principal may be invited to attend an initial and review child protection Case Conferences or core group meeting convened by the Western Health & Social Care Trust and where possible a school representative will be in attendance. A written report will be provided for these meetings and will be compiled after discussion with relevant staff. Feedback will be given to staff under the 'need to know' principle on a case-by-case basis. Children whose names are on the Child Protection register will be monitored in line with what has been agreed in each child's protection plan;

9. CONFIDENTIALITY AND INFORMATION SHARING

Information given to members of staff about possible child abuse cannot be held "in confidence". In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals particularly the investigative agencies and where physical or sexual abuse is suspected, a legal duty to report this. However, only those who need to know will be told.

10. MANAGING INFORMATION ABOUT PERSONS WHO POSE A RISK

The school will deal with information which comes to them through PPANI or PSNI appropriately and in accordance with DE circular 2014/27. Any information which comes to the school from other sources, they will approach firstly the Public Protection Unit for advice on how to proceed.

11. RECORD KEEPING

All child protection records, information and confidential notes are kept in separate files in a locked drawer. These records are kept separate from any other file that is held on the child or young person.

If a complaint about possible child abuse is received by the school and is not referred to Social Services – or if it is referred and Social Services do not place the child's name on the Child Protection Register – a record on the child's file will be permanently preserved and a confidential copy will be sent to any school to which the child subsequently transfers.

If the Social Services inform the school that child's name has been placed on the Child Protection Register, a record of this fact and associated documentation from the Social Services will be maintained on the child's file.

DE advice despite the Schools Model Disposal of Records Schedule that schools hold all child protection records until the child is 30 years old, the school will follow this advice. Protection records in relation to the child will be held in secure and confidential storage for 30year preservation. Please refer to Appendices 5(a) and 5 (b), 5 (c) for recording pro-formas used to record concerns.

12. VETTING PROCEDURES

All staff paid or unpaid who are appointed to positions in the School are vetted in accordance with relevant legislation and Departmental guidance.

12. CODE OF CONDUCT FOR ALL STAFF PAID OR UNPAID

All actions concerning children and young people must uphold the best interests of the young person as a primary consideration. Staff must always be mindful of the fact that they hold a position of trust, and that their behaviour towards the child and young people in their charge must be above reproach. The school has a code of conduct for staff which is intended to assist staff in respect of the complex issue of child abuse, by drawing attention to the areas of risk for staff and by offering guidance on prudent conduct. It is not intended to detract from the enriching experiences children and young people gain from positive interaction with staff within the education sector.

The schools code of conduct is included as Appendix 6.

12. STAFF TRAINING

Bready Jubilee Primary School is committed to in-service training for its entire staff. Each member of staff will receive general training on Policy and procedures with some members of staff receiving more specialist training in line with their roles and responsibilities. All staff will receive basic child protection awareness training and annual refresher training. The Principal/Designated Teacher; Deputy Designated teacher, Chair of the Board of Governors and Designated Governor for Child Protection will also attend relevant child protection training courses.

When new staff or volunteers start at the school they are briefed on the school Child Protection Policy and code of conduct and given a copy of the policy which includes what to do if you are worried that a child is being abused.

14. THE PREVENTATIVE CURRICULUM

In the classroom, regular Circle Time sessions are used as a means of encouraging children to raise social and emotional concerns in a safe environment and to build self confidence, respect and sensitivity among classmates.

Throughout the school year child protection issues are addressed through class assemblies and relevant information throughout the school provides advice and displays child helpline numbers. A flow diagram of how a parent may make a complaint is also on display. A flow diagram for a teacher allegation is in staff room.

Other initiatives which address child protection and safety issues:

- The NSPCC visits the school and provides information on a range of child protection issues through Assemblies, talks, role-plays, puppet shows and resources.
- Anti-bullying week/Internet Safety Talks
- Helping Hands Scheme through Woman’s Aid
- Playground Pals/PDMU Curriculum
- Primary 4/5 pupils take part in the Northern Ireland Fire and Rescue Service talks on Fire Safety.

15. MONITORING AND EVALUATION

Bready Jubilee Primary School will update this Policy and procedures in the light of any further guidance and legislation as necessary and review it annually. The Board of Governors will also monitor child protection activity and the implementation of the child protection policy on a regular basis through the provision of reports from the designated teacher.

On-going evaluation will ensure the effectiveness of the Policy.

CODE OF CONDUCT

Private Meetings with Pupils

- Staff should be aware of the dangers which may arise from private interviews with individual pupils. It is recognised that there will be occasions when confidential interviews must take place. As far as possible, staff should conduct such interviews in a room with visual access, or with the door open.
- Where such conditions cannot apply, staff are advised to ensure that another adult knows that the interview is taking place. It may be necessary to use a sign indicating that the room is in use, but is not advisable to use signs prohibiting entry to the room.
- Where possible another pupil or (preferably) another adult should be present or nearby during the interview, and the school should take active measures to facilitate this.

Physical Contact with Pupils

- As a general principle, staff are advised not to make unnecessary physical contact with their pupils.
- It is unrealistic and unnecessary, however, to suggest staff should touch pupils only in emergencies. In particular, a distressed child, especially a younger child, may need reassurance involving physical comforting, as a caring parent would provide. Staff should not feel inhibited from providing this.
- Staff should never touch a child who has clearly indicated that he/she is, or would be, uncomfortable with such contact, unless it is necessary to protect the child, others or property from harm.
- Physical punishment is illegal, as is any form of physical response to misbehaviour, unless it is by way of necessary restraint.
- Staff who have to administer first-aid to a pupil should ensure wherever possible that this is done in the presence of other children or another adult. *However, no member of staff should hesitate to provide first-aid in an emergency simply because another person is not present.*
- Any physical contact which would be likely to be misinterpreted by the pupil, parent or other casual observer should be avoided.
- Following any incident where a member of staff feels that his/her actions have been, or may be, misconstrued, a written report of the incident should be submitted immediately to his/her line manager.
- Staff should be particularly careful when supervising pupils in a residential setting, or in approved out of schools activities, where more informal relationships tend to be usual and where staff may be in proximity to pupils in circumstances very different from the normal school/work environment.

Choice and Use of Teaching Materials

- Teachers should avoid teaching materials, the choice of which might be misinterpreted and reflect upon the motives for the choice.
- When using teaching materials of a sensitive nature a teacher should be aware of the danger that their application, either by pupils or by the teacher, might after the event be criticised. Schools have already received advice on the value of consulting parents and Governors when proposing to use materials such as the drugs education for schools and in connection with sex education programmes.
- If in doubt about the appropriateness of a particular teaching material, the teacher should consult with the principal before using it.

Relationships and Attitudes

Within the Pastoral Care Policies of the school and the employing authority, staff should ensure that their relationships with pupils are appropriate to the age, maturity and sex of the pupils, taking care that their conduct does not give rise to comment or speculation. Attitudes, demeanour and language all require care and thought, when staff are dealing with children.

Conclusion

It would be impossible and inappropriate to lay down hard and fast rules to cover all the circumstances in which staff interrelate with children and young people, or where opportunities for their conduct to be misconstrued might occur.

From time to time it will be prudent for all staff to reappraise their teaching styles, relationships with children/young people and their manner and approach to individual children/young children, to ensure that they give no grounds for doubt about their intentions, in the minds of colleagues, of children/young people or of their parents/guardians.
